Priority actions

1. **Image size and format** Review
   Checked 12 images: 0 over 300 kB, 2 WebP/AVIF, 8 PNG/JPG.
   Suggested fix: Resize and compress images and consider WebP or AVIF. Review images over 300 kB.

Connection and HTTPS 10

- **HTTP response** Passed — 10
  The page returned HTTP 200.
- **HTTPS** Passed — 10
  The page opened over an encrypted HTTPS connection. HTTPS encrypts information sent between the browser and server, such as an email address entered into a form. Encryption makes it harder to read or alter information in transit. This check verified the final HTTPS address for this page request. This finding does not assess every subpage, external resource or other security control.

Security, cookies and links

10

- **Privacy policy link** Passed — 10

  A privacy policy link was found.

- **Broken internal links** Passed — 10

  Checked 18 internal links (up to 30). Broken responses (404 or similar): 0.

- **Cookie banner** Passed — 10

  A visible cookie banner was detected in a fresh browser session.

- **Cookie consent behaviour** Passed — 10

  The accept button was clicked and the banner closed. No known tracking was detected before acceptance; analytics or tracking activity was detected afterwards. The result applies to this test visit only. Receipt of a tracking request by the analytics service could not be verified.

Technical and mobile checks

9.1

- **Mobile viewport** Passed — 10

  A viewport meta tag was found.

- **robots.txt** Passed — 10

KAJO TEMPLATE
Websites

Report prepared by Kajo Template. This check used the public website address without access to the server. Questions or help with fixes: **kajotemplate.fi** · **tilaukset@kajotemplate.fi**

- Static HTML analysis may miss elements added by JavaScript; these are reported as "not detected".
- Internal links and images are sampled (up to 30 links and 20 images).
- The browser consent check is a limited one-off observation. Inconclusive results are not scored or marked as passed.
- Google Business Profile and social link findings do not affect scores. Profile existence and ownership are not verified with external services.
- This check covers technical information that supports search engines. It does not assess visual design, writing quality or the accuracy of service and product content.
